

SA-TIED & NT-SDF

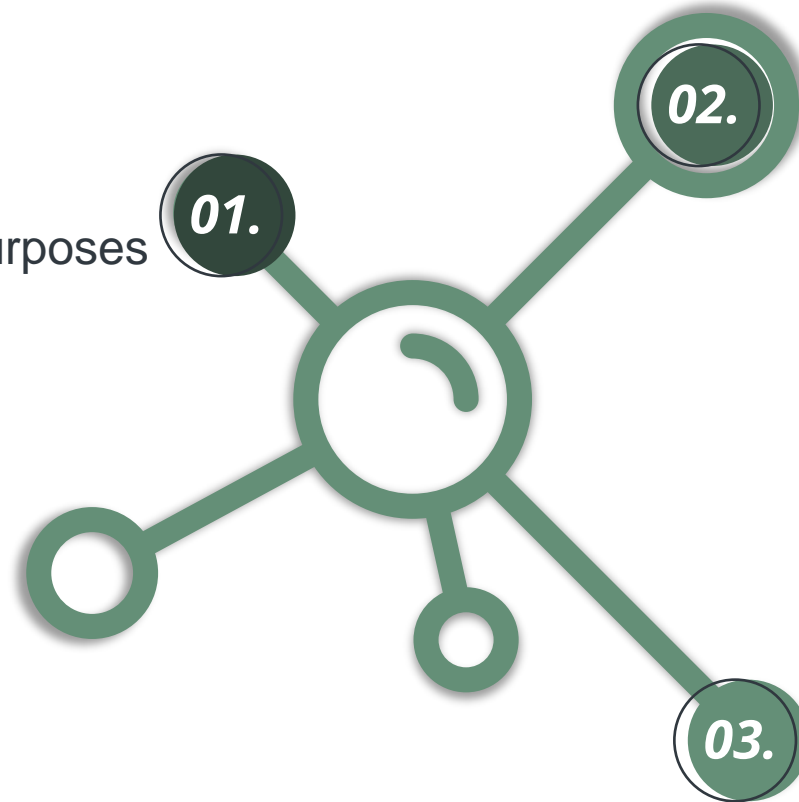

Administrative data as a tool for research and policymaking

SA-TIED

Southern Africa – Towards Inclusive Economic Development

Purpose of the NT-SDF

Make anonymised
administrative tax data
available for research purposes

Policy relevant research

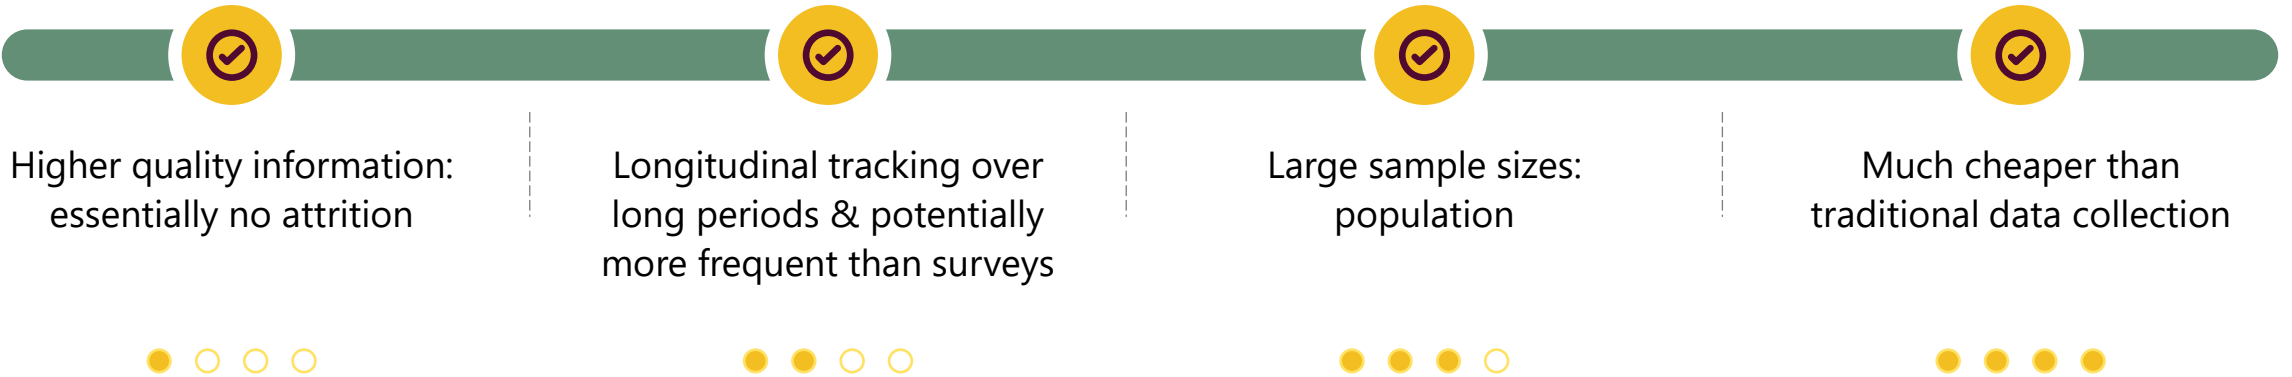

Strategic meeting place:

- Top researchers (local & international) & National Treasury employees
- Policy take-up (seminars, workshops & 'watercooler chats')

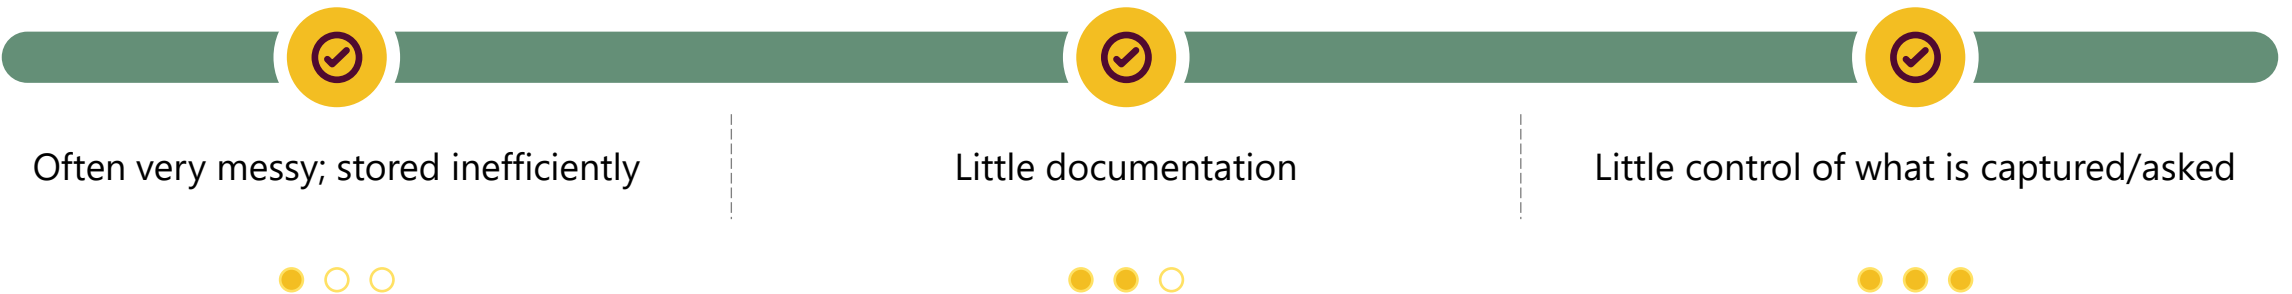

SA-TIED

Southern Africa – Towards Inclusive Economic Development

Benefits of admin data

Downside of using admin data

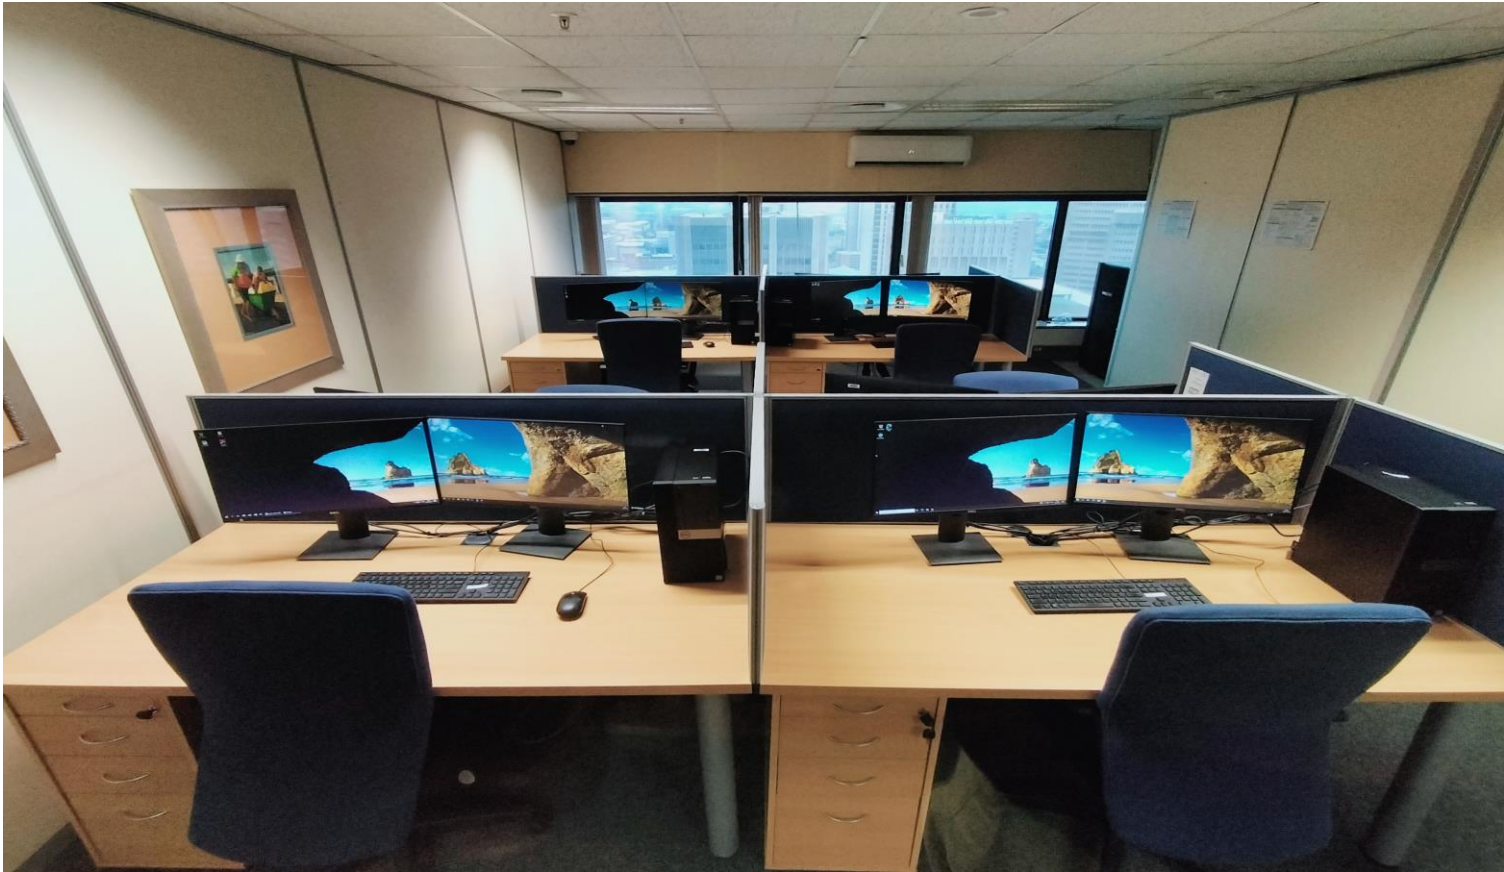

NT-SDF

Overview of the data lab

SA-TIED

Southern Africa – Towards Inclusive Economic Development

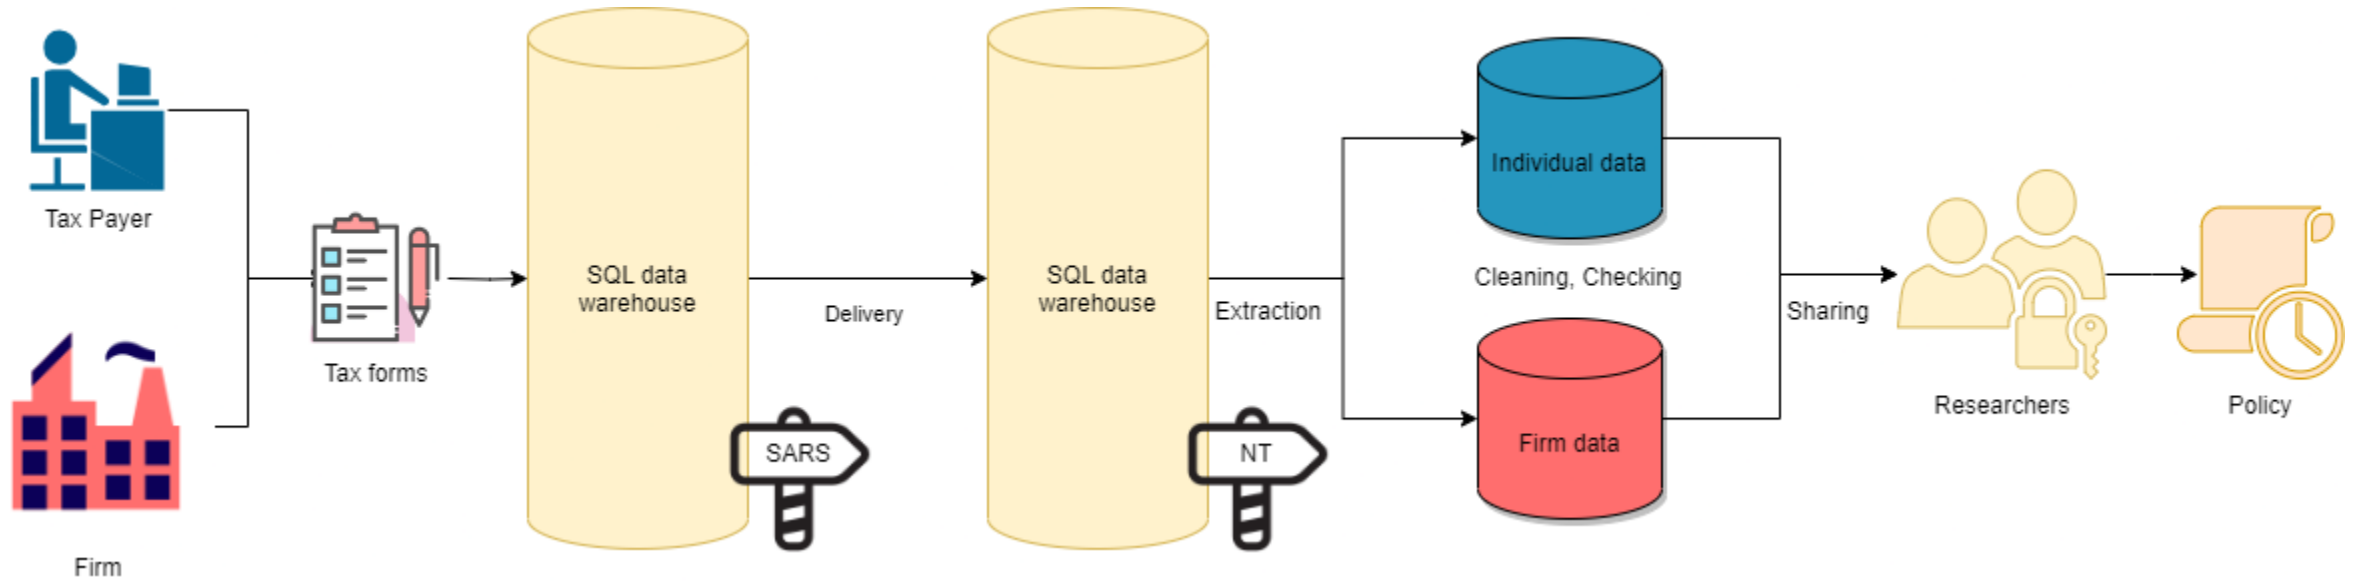

National Treasury – Secure Data Facility

SA-TIED

Southern Africa – Towards Inclusive Economic Development

Data Pipeline

Main tax administrative datasets

How to get access to the data?

> SA-TIED program (funding available)

- Requests for proposals
- Directly commissioned papers
- Local research collaborators
 - Research topics determined jointly by academic and policy leadership
- <https://sa-tied.wider.unu.edu/opportunities>

> National Treasury (no funding available)

- Research proposals can be sent to ntsdf@treasury.gov.za
- Criteria:
 - Policy relevant research
 - Feasible and novel research question

> SEAD-SA

- Municipal-level economic indicators
- <https://spatialtaxdata.org.za>
